REMARKS

In order to place this application in condition for a complete action on the merits, the specification has been suitably revised to correct informalities, provide antecedent basis for the claim language, and bring it into better conformance with U.S. practice. The title has been changed to "PERMANENT MAGNET, MOTOR EQUIPPED WITH PERMANENT MAGNET, AND METHOD FOR MAGNETIZING PERMANENT MAGNET" to more clearly reflect the invention to which the new claims are directed. A new, more descriptive abstract has been substituted for the original abstract.

Submitted herewith is a replacement sheet for Fig. 1 incorporating revisions to label cross-sectional line 3-3 and identify the stator portion with reference numeral 2 to conform to the description in the specification.

Original claims 1-6 have been replaced by new claims 7-24 to correct informalities, overcome instances of indefiniteness, improve the wording, provide a fuller scope of coverage, and to bring them into better conformance with U.S. practice.

Early and favorable action on the merits are respectfully requested.

Respectfully submitted,
